Report of Selectmen

The newly elected Board of Selectmen — Kenneth E. Morang, Jr., Burton F. Whitcomb, J. Edward Surette, Jr., Thomas D. Morse, John W. Moccia, Jr. — organized on March 8, 1960 by electing as Chairman, J. Edward Surette, Jr., Secretary, Burton F. Whitcomb, John J. McCarthy, Executive Secretary and Raymond S. Dower — Mrs. Ida L. Weiss, Clerk.

Prior to the election of the new Board, Chairman Morang resigned the Chairmanship in favor of the election of Selectman Herbert R. Waite, who was not a candidate for re-election, as Chairman of the Board. This action was taken in recognition of Selectman Waite's contribution of outstanding service as a member of the Board of Selectmen.

COMMITTEE APPOINTMENTS

Fire Department: Burton F. Whitcomb, John W. Moccia, Jr.

Police Department: Kenneth Morang, Jr., Thomas D. Morse

Veterans' Services Department: John W. Moccia, Jr.

Civil Defense Department: John W. Moccia, Jr.

Building-Wire Inspection Departments: Thomas D. Morse

John J. McCarthy was re-appointed Executive Secretary for a term of three years in accordance with the provisions of Chapter 5, Section 8 of the by-laws of the Town of Wakefield. This position provides for managerial co-ordination of all departments within the Selectmen's jurisdiction as well as with other Town, State and Federal Boards, Committees, Departments and Officials. The Executive Secretary also serves as the Board of Selectmen's representative when the Board is not in session.

Mrs. Ida L. Weiss was appointed as Clerk of the Board to succeed Raymond S. Dower upon his retirement. Mr. Dower had faithfully served the Town for many years as a Selectman and Clerk to the Board, during which time, his services had proven extremely valuable.

Tax Collector Carl W. Sunman succumbed on April 18, 1960 after twenty-five years of faithful service to the Community. Miss Catherine E. Simpson, a former member and Chairman of the Board of Selectmen, was appointed Temporary Tax Collector.

The Board met in joint session with the Board of Public Works and the Recreation Commission for the purpose of filling a vacancy on these Boards as is required by the Massachusetts General Laws.

Mr. Melvin J. Levine was elected to the Board of Public Works to fill the vacancy caused by the resignation of Herbert Hewitt, Jr., and Mrs. Vera D. Curley was elected to the Recreation Commission to fill the vacancy caused by the resignation of John O'Brien.

Chapter 17 of the Town By-Laws prescribes that the Board of Selectmen shall supervise and conduct the election of an employees' representative to the Personnel Board for a term of three years. Lieutenant Charles C. Curran of the Fire Department was elected to this position.

Rev. William F. Maloney was appointed Catholic Chaplain of the Police Department and Rev. Louis Bourgeois of the Fire Department. Rev. John V. Thorp was appointed Protestant Chaplain of the Police Department and Rev. John Koehler of the Fire Department.

The Board engaged in an active consideration of the multi-complex problems that press upon a growing suburban community. The Federal Census Bureau certified the population of the Town as 24,276 persons, which represented an approximate twenty-five percent increase in the past ten years. The Town's growth as an important Business-Residential Community is being constantly identified with this changing population pattern.

The Board of Selectmen has continued to represent the Town's interest before Legislative Committees and Special Commissions for the purpose of presenting information and evidence on matters which are critically important to the Town of Wakefield.

A continuous study of parking and traffic problems has been maintained by the Committee on Police. Many changes have been effected, as required, in the Street Traffic Rules and Regulations. A complete review of the entire Traffic Rules and Regulations' code has been undertaken and will be approved and reprinted immediately after the next Annual Town Meeting. The Board has authorized negotiations for the purchase or eminent domain taking of properties previously voted by Town Meeting as required in the lay-out for the construction of a Main Street By-pass. These properties have not been taken because of necessary clearancy by the Massachusetts Department of Public Works with the Wakefield Department of Public Works before construction plans can be completed. The Police and Fire Departments regard this section of roadway as essential to the provision of proper protective service and it is generally agreed that such a roadway would eliminate a great proportion of thru traffic in the congested business center.

The Board continued to oppose the installation of "automatic gates" at the Boston & Maine Railroad Crossing on Forest and Main streets. The Boston and Maine Railroad has now petitioned the Massachusetts Department of Public Utilities for permission to withdraw their request for this installation.

The boundaries between the Towns of Wakefield and Saugus were perambulated as prescribed by law.

The interest rate of three percent on One Hundred Thousand Dollars in Sewer Bonds, Fifty Thousand Dollars in Water Bonds, and an interest rate of one and one half per-cent on twenty eight thousand dollars for short term borrowing in anticipation of reimbursement from the State and County for the Construction and Maintenance of Public Ways were approved by the Board. Tax Foreclosed property sales in the amount of \$2,174.54 were approved after many conferences with Town Treasurer, Paul Lazzaro. The Board voted to withhold approval on any further sale of Tax Foreclosed property until a Master Plan of the Town presently being prepared by a consultant for the Wakefield Planning Board is completed.

Fifty-five Treasury Warrants totalling \$8,676,073.04 were approved by the Board in payment of Salaries, Wages, Billings and Maturing Indebtedness.

The Board of Public Works was authorized to incur liabilities not in excess of \$24,000 on account of the extreme emergency caused by the snow storm initiating on December 12, 1960.

The program of insurance benefits for town employees which was authorized by referendum action in March, the year nineteen hundred and

fifty-eight has continued in force and the contract for Group Hospital, Surgical and Medical Insurance was awarded to Blue Cross-Blue Shield, and the contract for Life Insurance was awarded to the John Hancock Life Insurance Company for a one-year period.

A vast amount of time and effort was spent by the Board on a great many miscellaneous problems which would be too detailed to highlight in this report.

Reports of the various departments under the jurisdiction of the Board will be found under other headings in this report and this activity has been submitted to the Board by the individual departments on a monthly basis. These monthly reports have provided information necessary in the development of administrative planning.

The Board appointed election officers and tellers for service at the elections on September 13, 1960, and November 8, 1960.

Report of the Personnel Board

Regular scheduled monthly meetings of the Personnel Board were held each month during 1960. In addition to this, there were such additional executive meetings as necessary, plus a number of meetings through the year with the Finance Committee.

Despite hopes that the 1959 review of all departments would serve to stabilize the situation, problems continued to arise throughout the year.

We are, naturally, concerned with the continued rising trend in government costs, not only as it affects us in local government, but also at the State and Federal levels.

To the best of our ability, we have tried and will continue to try to act on the matters coming before the Personnel Board in a fair and equitable manner to those concerned, the employees and the taxpayers.

In the ultimate end, the final judgment of our major decisions still rests with the voters.

Report of Town Planning Board

In June, matching Federal Funds having become available, the contract for the Master Plan was signed with Technical Planning Associates, Inc., of New Haven, Conn., who began basic studies of the town at once. A report of progress with a display of maps is planned for the 1961 annual town meeting.

The three subdivisions in process on Jan. 1, 1960, were approved and another of 6 lots, filed in 1960, was also approved in 1960. As of Dec. 31, one other with 15 lots was awaiting approval.

Five additional preliminary plans for subdivisions were submitted during the year, of which two were tentatively approved.

The Planning Board acting as Board of Survey held public hearings on the laying out of 4 streets. Following a public hearing, Brook Street north of Route No. 128 was renamed Redfield Road.

One major addition was made to the Zoning Bylaws. In the past few years several multiple family houses had been built in General Residence and Business Districts on lots which allowed very little area beyond that required for the building and parking. In order to give the voters of Wakefield an opportunity to preserve the suburban character of the town, the Board in the warrant for the annual town meeting offered a bylaw establishing minimum area requirements for multiple family dwellings. This bylaw was adopted by a large majority vote.

On Dec. 28 an article proposing a bylaw to create a Limited Business District was advertised for public hearing. If voted, this bylaw will set up a district limited in use essentially to business and professional offices, financial institutions, and hotels.

The Board regrets that no apparent progress was made toward the construction of the Main Street by-pass. This proposed street has been recommended by several consultants who have studied the traffic problems of lower Main Street and it is the hope of the Planning Board that action to lay out and construct the by-pass will be taken soon.

Mr. Joseph F. Casazza, who became Town Engineer in February, has attended most of the Board meetings since his appointment. His work as coordinator between the Department of Public Works and this Board is of great value, particularly in reference to the supervision of subdivisions as proposed and as constructed.

At the 45 regular meetings, over one hundred other land use problems were studied in addition to the work on subdivisions and zoning. The Board also held 3 public hearings on subdivisions, 1 on street renaming, 3 on zoning articles and 4 as Board of Survey, a total of 56 hearings and meetings in 1960.

In 1960, the following men were appointed to positions in the Police Department:

Jarvis S. Burbine — appointed regular patrolman as of Sept. 1, 1960.

William E. Myers, Jr., and Howard J. Ellis — appointed reserve patrolmen as of Sept. 15, 1960 and regular patrolmen as of Oct. 1, 1960.

Robert J. Malonson and William E. Upton — appointed reserve patrolmen as of Sept. 15, 1960.

John D. Tecce — appointed reserve patrolman as of Oct. 12, 1960.

The appointment of Roy E. Melanson as a reserve patrolman has been requested as of Jan. 1, 1961.

All available vacancies in the ranks of regular patrolmen or officers in the department have been filled, and I am not asking for additional regular patrolmen in the year 1961; however, there are three vacancies in the position of reserve patrolman for which there are no applicants available from the Civil Service list. Again in 1960, it has been necessary to employ special provisional reserves with the permission of the Civil Service Commission. Most of these men are members of the Auxiliary Police Force and are interested enough in the department to help out in their spare time in order to keep the department functioning efficiently.

During 1960, the following members of the department have received additional training in police work:

Patrolmen Raymond F. Malonson, James W. Foley, Frank P. Skillings, Robert A. Westcott and Arthur M. Bragg graduated from the Massachusetts State Police Academy in Framingham.

Patrolmen Alfred J. Foley, John F. Brennan, Anthony A. Bucci, Jarvis S. Burbine, William E. Myers, Jr., and Howard J. Ellis graduated from the Cambridge Police Academy.

Serg't James T. McKeon attended the Federal Bureau of Investigation Firearms Training School at Camp Curtis Guild.

I feel that all members of our department should be given every opportunity to receive additional training in police work. I am hoping to send three more officers to school this year.

All members of the department are required to fire regularly on the range with their service revolvers. The entire force of men attended the F. B. I. school for police-type shooting at Camp Curtis Guild.

In accordance with the town policy of replacing uneconomical equipment, a 1960 station wagon cruiser was purchased to replace an older model cruiser. The Main Street Chevrolet Company has made a policy of donating a station wagon each year to the Police Department for use as a safety car. Our 1960 safety car has been of great value to the Safety Officer for use in his work in safety instruction at schools, playgrounds and churches.

The development of a new traffic division in the department is progressing well. Four members of this department are regular motorcycle officers and have use of two motorcycles within the department, one of which was equipped with a two-way radio during 1960. The motorcycles are maneuverable for use in traffic work, are inexpensive to operate and spare the load on our more expensive vehicles. We now have thirteen women traffic officers attached to the Traffic Division to add to the safety of children going to and from school.

The police ambulance will be eight years old in 1961. It has gone approximately 50,715 miles and has responded to 4,888 calls to transport citizens to and from the hospital. This valuable piece of equipment is starting to rust out and needs constant expensive repairs. I should like to purchase a new ambulance in 1961 so that the town will not be without ambulance service during a major breakdown of the present ambulance.

A photo-copying machine has been added to our office equipment. It is useful and profitable to the town for providing copies of accident reports to proper authorities. There is a charge for this service and the proceeds are turned back to the town.

Most of the criminal cases occurring within the past year have been cleared by arrest, and there has been no real increase in crime noted. One serious case, where a house was entered and two persons were tied up and assaulted, has not been cleared; also not cleared are several cases of breaking and entering.

This department has had full co-operation from the Federal Bureau of Investigation, from the State Police and from other cities and towns of the Commonwealth. We have also aided them. These other organizations have been very helpful in clearing cases and in assisting with handling large crowds. We find it most necessary to work together because most criminals move from place to place very easily in these days of high-speed vehicles.

J. MERRITT WENZEL

Report of Sealer of Weights and Measures

In public service, there is no official having greater opportunity to serve the public in the field of consumer protection than your sealer of weights and measures. The consumer has but little opportunity to check the quantity of his purchase under today's methods of food distribution. Likewise, the accuracy of his fuel oil deliveries is dependent upon the activities of good weights and measures administration.

With daily living expenses forced higher and higher, the buying public is today more than ever "quantity conscious." Today's high prices permit no controversy; ounces and pounds, pints, quarts and yards are dollars and cents.

To receive short weights or measures is the equivalent of receiving counterfeit money in your change. To give short weights or measures is a double edge evil, it not only cheats the purchaser, but provides unfair competition by offering a means of underselling an honest competitor. For a merchant to give long weights or measures, either carelessly or unknowingly, is to give away his profit, his means of livelihood. Neither short nor long weight or measure can be tolerated.

It is the policy of this Department to be of equal assistance and protection to all parties concerned. To the buyer by safeguarding him against commercial misconduct in the matter of weights and measures, to the seller by taking out of his path erroneous trade customs.

Below is a report of the work accomplished by your Dept. of Weights and Measures.

	Sealed	Adjusted	Condemned
Scales over 10,000 lbs. capacity	1	1	0
Scales 5000 to 10,000 lbs. cap.	3	3	0
Scales 100 to 5000 lbs. cap.	20	6	2
Scales under 100 lbs. cap.	155	18	4
Weights	68	0	10

Meters - inlets one inch or less	120	3	1
Pumps	2		
Meters - inlets more than one inch	26	4	0

Report of Director of Civil Defense

This department was organized pursuant to directives issued by the Governor of Massachusetts and Chapter 639 General Laws of Massachusetts.

There is one paid employee serving as office clerk and field agent. The director and all other members of the organization are serving on a volunteer basis.

Rescue Service: A well trained crew of 17 men man this vehicle and are available to all departments for all types of emergency work. Police Sgt. William R. Connors graduated from the two weeks intensive heavy duty CD Rescue School in Topsfield. Skin Divers being organized in conjunction with the Police Department now have six trained men operating under the direction of Patrolmen Frank Skillings and Arthur Bragg. Notable service of these units to the town were the September hurricane and the disastrous plane crash in Winthrop Bay in October. This unit needs a new chain saw and radio on the Police-Light Department frequency due to age and failure of present units.

Communications: This group meets regularly and is available to town agencies for emergency communications work. Their value was proven during the September hurricane when they provided the only means of emergency power and communication for our vital Light & Gas Department and Public Works when telephone communications failed and were out during the entire storm. This group needs 2 - 12 volt radios to replace 6 volt units which are no longer useful for mobile communications but will be converted to base station operation.

Police - Fire Services: These organized groups receive regular training and are available as are all units for varied types of emergency work.

Medical: A small group of highly trained personnel stands ready to man our emergency hospitals and fill in on minor emergencies.

Air Raid Sirens: Town has virtually no means of warning populace and Selectmen have recommended no action in this system.

Matching Funds: It is recommended by this department that the town take further advantage of this program in all areas. To date we have utilized \$15,000.00 worth of materials and should have tripled that amount.

Surplus Property: The town should take greater advantage of this program.

Advisory Council: It is recommended that the Board of Selectmen reactivate the Civil Defense Advisory Council.

The director thanks Deputy Director Frank Tredinnick for his untiring efforts in the field of Civil Defense, The Honorable Board of Selectmen, and the heads of all town departments and the Daily Item for their cooperation in this effort.

Report of Board of Health

In the Year 1960, Infectious Hepatitis and Chicken Pox were increased over the previous 5 years. There were no cases of Poliomyelitis reported in the Town this year.

Diphtheria - Tetanus and Whooping Cough immunization Clinics were held for preschoolers with 80 children receiving a series of 3 inoculations and 103 receiving booster inoculations.

There were 7 new cases of Tuberculosis reported, 2 deceased, 1 moved in. There are 6 cases Hospitalized at present and 16 on Chemotherapy, making a case load of 50.

The following is an abbreviated summary of field trips, nursing services and investigations made by the Public Health Nurse:

Nursing visits to Tuberculosis patients and contacts	110
Number of Contacts to Tbc. patients X-rayed	50
Number of trips to Sanatorium for X-rays	60

Report of Board of Public Welfare

Each year, in writing this report, the same questions arise — do the citizens understand Public Assistance, are they satisfied with the administration of the local program and do they approve the large expenditures of money? Then the problem that confronts the Board is how to explain the program, so that the citizens may understand what it is all about.

The various categories of assistance under the supervision of the Board, are General Relief, Aid to Dependent Children, Disability Assistance, Old Age Assistance and Medical Assistance for the Aged. The last four are part of the Social Security Act. Aid to Dependent Children and Old Age Assistance were born during the severe economic depression, in the belief that public assistance would be a diminishing program, while the social insurance would be the basic program; but it has not worked out that way. Many types of employment are not covered under the present Social Security Act, and the present grants under the Old Age & Survivor's Insurance

program are not sufficient to provide for the individual's needs, and therefore they are required to seek public assistance in addition to their Social Security grants, to meet the present costs of living. Under the present laws governing the administration of public relief, all needs are met — there is no maximum amount. This means that an individual's needs, to include medical, hospital and all other services are provided, in addition to the needs in the home.

It is believed that no private business and few public organizations could have survived the brand of publicity Public Welfare has had since its beginning. The emphasis has always been on the cost — never on what the public gets for its money. The truth is that Public Welfare does not cost — it pays. It pays in actual dollars and cents of the taxpayer's money, besides the priceless human values which it conserves. Perhaps this best could be explained where the granting of assistance has seen many families rehabilitated because they were able to get help when illness or accident to the bread-winner presented emergencies they could not cope with unaided. In these emergencies, which are major threats to family security, besides the financial help given, there is the stabilizing influence of the social service rendered by the workers who go in on the case. By financial assistance in these cases, the children are able to have sufficient food, decent shelter and adequate clothing, which enables them to continue in school and become useful citizens in the community.

Another reason for the increase in the case load and costs of public assistance, is the increased life span of the average individual. In 1900, the average length of life was 49 years. In 1955 it was 66. In 1900 one person in twenty-five (25) was 65 years of age or older. In 1980 it is estimated that the ratio will be one in ten. As people become older, their medical needs change, and they require more medical service. As the average citizen well knows, the costs of medical services have increased and of course has resulted in a large increase, when you consider a large number of cases at one time. Medical science has, of course, made a great deal of progress and has reduced many diseases which were once fatal, to a point where — if properly cared for — can now be cured. For the aged and chronically ill there is no well planned or integrated service. Unfortunately, they find refuge in general hospitals, convalescent homes and homes for the aged. The majority have worked steadily and productively in a society that respects only the productive, and the ending of ability to do gainful work is for most aged persons a tragedy. It symbolizes the end of independence and purpose of life. Unfortunately, at present, there does not seem to be any way to work out a program to care for this type of aged person in need, because old people fear isolation and want to be near relatives and friends. They like to be around where they can associate with their old friends, and they like to attend the church where they have been in attendance for many years. To accomplish good social work, it is best that they should have a home of their own, or live with relatives or friends as long as they are capable to, in some way, care for themselves.

More than six million persons (Social Security Bulletin 1958) were receiving public assistance; almost 2.5 million aged with an average payment of \$61.79; almost 750,000 families (three million recipients) receiving ADC with an average payment of \$103.26 per family; 109,000 blind with an

average of \$66.98 per month; 321,000 permanently and totally disabled receiving only \$60.85; and 381,000 cases receiving general assistance with an average payment per case of \$61.43. Public assistance represents the only available income to approximately 80 per cent of these families.

Public Welfare

During 1960 there were 38 cases aided under this category in Wakefield with an expenditure of \$7,894.72. This agency paid \$5,053.35 to other communities for aiding Wakefield settled cases. The total expenditures for this type of assistance during 1960 was \$12,948.07. Assistance under this program is granted to individuals who are not eligible for other types of assistance. In most cases, applications are received from individuals due to sickness or unemployment. They are not constant cases and sometimes receive assistance for a short period of time only. There has been an increase in the number of welfare cases aided during the last several years. This is due to the population increase in this community. This is the only category of relief in which Federal Government does not participate. They do not reimburse in any welfare case for aid, or for administration costs.

Aid to Dependent Children

During 1960 the local board aided 29 cases under this program. The total expenditures amounted to \$42,386.75. The costs of this program were shared by the Federal Government, the State and the local community. Aid to Dependent Children is provided in cases where there is a widow with dependent children, and when families have been deserted. It is also granted to a family where the parent is physically incapacitated, and the medical report shows that the duration of disability will extend for a period in excess of three (3) months.

Federal reimbursement received during the year is held in a special account by the Town Accountant and is used for this program only. The State share of reimbursement cannot be credited to this account and therefore goes to the Excess & Deficiency account of the town as an estimated receipt.

Disability Assistance

This program is part of the Social Security Act. A person must be 18 years of age or over, to have lived in Massachusetts continuously for one year immediately preceding the date of application for assistance, and to be in need of aid. This category came into effect in November of 1951 and is to provide for needy persons found to be permanently and totally disabled.

During 1960, 30 cases have received a direct grant from this board at a total cost of \$40,695.20. Federal reimbursement received during the year is held in a special account by the Town Accountant and is used for this program only.

Old Age Assistance

To be eligible for Old Age Assistance, which is also part of the Social Security Act, a person in Massachusetts must be 65 years of age, to have lived in the Commonwealth three out of the last nine years — one year immediately preceding the date of application — and to be in need of assistance. There are also other eligibility requirements such as personal property and amount of income, which must be considered before the local board can render a just decision.

During 1960 there were 304 cases aided by the Wakefield Board of Public Welfare under this category, at a cost of \$322,656.98. This community also had to reimburse other communities at an approximate cost of \$2,000.00. We expect to receive in the vicinity of \$8,944.28 from other communities. Total expenditures for Old Age Assistance during 1960 was \$324,656.98.

Old Age Assistance is part of the Social Security Act, and the costs are shared by the Federal Government, State and local community where the person is legally settled. The Federal reimbursement is retained in a special account — the same as Aid to Dependent Children and Disability Assistance — and is used over again by this board. The State share and the money received from other cities and towns for cases aided in Wakefield are credited to the Excess and Deficiency Account, as estimated receipts.

Medical Assistance for the Aged

Medical Assistance for the Aged is also part of the Social Security Act, and became effective on October 1, 1960. The costs are shared also by the Federal, State and local government. This program is expected to increase tremendously. There are several amendments before Congress at present, and if approved will broaden the category even beyond its present scope. The total spent since this category became effective was \$37,650.00. The number of people assisted under this program since October 1, 1960 was 67.

Administration Costs

The term "Administration Costs" covers all expenditures of the board to administer the five programs under the board's supervision, which are Old Age Assistance, Disability Assistance, Aid to Dependent Children, Medical Assistance for the Aged, and Public Welfare. The Federal Government does not participate in the costs of administering the Welfare program, but does the other four categories. Federal reimbursement is based on home visits and all contact with cases in the office.

The Social Security Act requires all employees of the board to be under Civil Service, and salaries must conform to Civil Service Compensation Plan (minimum.) Old Age Assistance and Disability Assistance, and Medical Assistance for the Aged cases must be visited semi-annually; Aid to Dependent Children cases every three months, and General Relief cases are seen or contacted weekly.

It should be remembered that general economic conditions govern the expenditures required and unfortunately the expenses of the Board of Public Welfare are always the greatest when the economic conditions of the country are bad, and when the taxpayer can least afford to pay the high cost.

This report has been prepared for the local Board of Public Welfare by Andrew P. Ring, Director.

The board members are:

VIRGINIA M. JACKSON, Chairman
P. ELIZABETH KITCHENMAN, Secretary
ALBERT J. PETRUCCI
WILLIAM D. SCOTT

Report of Recreation Commission

The attendance at the Col. Connelly swimming area was 19,100 for 10 weeks; the weekly average was 1,910. Season totals and weekly averages for the play areas were: Common, total, 11,727, average for 8 weeks, 1,466; Moulton—total, 5,585, average, 698; Maple Way—total, 3,981, average, 488; Col. Connelly play area—total, 3,688, average, 461; J. J. Round—total, 3,385, average, 423; Nasella—total, 2,842, average, 355; Dolbeare—total, 2,683, average, 336; and Montrose—total, 1,840, average, 230.

There were 36 minor accidents and two major accidents. The latter consisted of a fractured wrist, and a laceration of the scalp.

Seven fields—Dolbeare, Blatz, Maple Way, Moulton, Nasella, J. J. Round, and Veterans were used for farm league baseball on Saturday mornings. Nasella and Blatz were also used for Little League baseball, and Moulton was used for Pony League baseball. The older boys played baseball on the Common and Walton Field.

The total number of boys in the above leagues was more than 600.

A tennis program was started this summer at Veterans' Field. A total of 125 players attended two clinics. A men's singles tennis tournament lasted for one month.

An adult softball league playing on Veterans' Field played from early May through September. The different teams totalled 180 players.

Handicraft was taught on all playgrounds and an exhibition of the best work was shown on the tennis courts at Veterans' Field under lights.

Story telling, softball, baseball, horseshoes, dodge ball, kick ball, checkers, bean bags, and volley ball were the main activities daily on each playground.

The staff consisted of 22 workers under one director. Next year with the addition of the Spaulding Street Bathhouse group consisting of a head life guard, an assistant head lifeguard, 4 assistants, a checker, and a gate tender the staff will increase to 30 members.

The Annual Demonstration Day at Veterans' Field under lights brought the season to a close. Hundreds of parents and friends watched each playground put on an exhibition. There was dancing on the tennis courts to recorded music.

Articles have been placed in the 1961 Town Warrant for the construction of six new tennis courts, and the addition of a new playground for the Montrose section.

Report of Board of Public Works

Board membership for 1960 remained the same as in 1959 except that in June Mr. Herbert Hewitt Jr., resigned, Mr. Melvin J. Levine was elected by the Selectmen and Board of Public Works to complete the unexpired portion of Mr. Hewitt's term.

The reconstruction of Farm and Nahant Streets will provide an improved access road from Wakefield to Route C-1 South. This project is being financed entirely by Federal Aid funds except for land taking.

Approval has been received for financial Federal assistance of approximately \$35,000 to aid in the construction of the new pressurized sewer main and pumping station at Farm and Nahant Streets.

In order to preserve the shore line of Lake Quannapowitt for the benefit of the town, the board is negotiating to procure several parcels of land adjoining the Lake.

A study of the Greenwood Fire Station revealed that the cupola is in danger of collapsing and that the extent of repair necessary to maintain the building is so great a new building is justified. Arrangements have been made to remove the cupola and an article has been inserted in the Annual Warrant proposing that a committee be appointed to study replacement of the existing station with a modern building.

There have been numerous requests from all sections to correct damaging drainage conditions and the most critical are those of the Mill River from New Salem Street to the Saugus River. It is proposed that construction be started in 1961 to correct the Mill River drainage.

Several sewer policy matters have been a problem to the Board, such as (a) the right to assess, (b) apportionment of charges not covered by the Betterment Act and (c) licensing of contractors to install sewer connections. At the request of the Board, Town Counsel has made a study of the sewer act but he has deferred reporting, pending the outcome of litigation in which the Town is involved.

The water supply and distribution system has been improved by the installation of an altitude valve at Hart's Hill. The replacement of undersized mains and resanding of one of the filter beds. An effective metering program together with greater than anticipated growth of the Town have provided a surplus of over \$90,000 in this division.

REPORT OF THE DIRECTOR OF PUBLIC WORKS

Construction progress in the year 1960 continued at a rate similar to that of recent years, with some of the work being done by the department, and some by contract. A particularly annoying problem of drainage in the vicinity of Hamilton and Jefferson Roads was ended this year with the installation of a drainage system in that area. This project was accomplished by town forces and although it solves one problem, there are

many other drainage areas which require attention in the town. It is hoped that these can be eliminated on a planned schedule in the next few years.

A major step forward in the extension of sewer service to a greater number of Wakefield residents was taken in 1960 with the awarding of a contract to construct the Oak-Nahant Street trunk sewer and pumping station. The contract for construction of a force main to connect this to our existing system will be awarded within the next month. This important link in our system will make sewer available to the East side of Wakefield. Construction has been delayed on the force main pending approval of Federal Aid for this section and notification has been received recently that \$35,100.00 will be made available for this work.

Extension and enlargement of our water distribution system was begun this year, following the recommendation outlined in the Water Survey Report. A continuing program based on this report will greatly benefit all inhabitants in the town by assuring them adequate pressure and quantity, and eventually, lower insurance rates.

The balance of this report is contained in the details of work accomplished as prepared by the Division heads.

GEORGE R. WINTERS,
Director

ENGINEERING DIVISION

The Engineering Division has worked diligently to try and satisfy the engineering demands of all the departments in the Town. It is becoming more and more evident that the engineering needs of the various departments, boards and general public of the Town requires an increase in man power in this division of the Public Works Department. A three man survey party; proper inspection of contract work and various subdivisions; and an adequate office staff are our goals. Negotiations along these lines have been in progress during the latter part of this year and we are in hope of satisfactory results.

Six streets were constructed for acceptance this year. Plymouth Road, Fell Street and Hillside Avenue (from Fairmount Avenue westerly to a dead end at Morningside Road) were built by the McDavitt Corporation of Wakefield, Mass. Harwick Road, Swansea Road (from Shetland Road to Harwick Road), and Beebe Lane were built by the Chesterbrook Construction Co., Inc. of Arlington, Mass.

Preliminary survey work has been done on Forrester Road and Brewster Road so that estimated quantities and costs may be determined for construction. Petitions for acceptance were received from the abutters on the aforementioned roads.

Costs and assessments of sewer, sidewalk and street construction projects that have been fully completed are being compiled and submitted to the Board of Assessors upon completion.

Keeping abreast with current projects in the field and office has been more than could be handled since there is some work that was requested but not completed this year. Therefore, I am sorry to report that "Project Backlog", as it has been called in previous reports, has not made any appreciable progress.

Street renumbering, making record plans of sewer and storm drain projects, "bench mark levels" and the filing system are some of the more important phases of the "Project Backlog".

I should like to express my appreciation to the Engineering staff, the Director and Board of Public Works, and to all the various departments and Boards that have given me their co-operation and assistance since I became Town Engineer in February of this year.

PARK DIVISION — 1960

The following work was completed during the calendar year 1960 over and above regular maintenance.

Installation of bleachers at Veterans' Field.

Treating all baseball diamonds with a dust repellent.

Removal of seven diseased elms and replanting with trees of other varieties.

Installation of dock system at the Bath House.

Development of Colonel Connelly and Hall Parks.

At the Colonel Connelly, installation of 220' of water line. Loaming and seeding an area of about 13,200 square feet. Hot topping all paths — by contract. Hauling and spreading 200 tons of sand on the beach area.

At the Hall Park on North Avenue, graveling and grading approximately 2500 square feet of walks. Installation of 200' of water line. Loaming and seeding 54,000 square feet of park area. Relocating and grading 250' of sidewalk on North Avenue. Removal of about 100 cubic yards of muck and replacing with gravel at shore area. Planting of 24 trees and shrubs, including five holly trees gift of Mr. George Moncrief.

Bath House: The dock system added greatly to the control and safety of swimmers, making facilities more complete. The Red Cross swimming instruction classes were exceptionally well attended.

MOTH AND TREE DIVISION — 1960

During the year we lost one hundred and fifty trees throughout the town due to Dutch Elm Disease.

We planted one hundred and thirty Maple trees, that were grown in our nursery, on various streets throughout the town.

Dutch Elm Disease is still on a steady incline. Most of our trees with this disease have been removed.

Gypsy and Satin Moths are about the same as in past years, but Japanese Beetles have increased in many areas.

With our Mist Blower we were able to spray our Elms twice. The Park and Common were sprayed for mosquitoes.

At this time I would like to express my appreciation to the Board of Public Works and the Director for their cooperation. I would also like to thank the Civil Defense and all other departments for their help during the past year.

REPORT OF THE SCHOOL COMMITTEE

During the past year two new members joined the School Committee when Lawrence J. Fitzgerald, Esquire and Mrs. William Spaulding were elected at the annual town election to succeed Stanley C. Goodwin and Mrs. Marcus G. Beebe both of whom had served the Committee and the Town well during their membership on the Committee.

In September the Committee elected the following as officers:

Henry B. McConville, Chairman
 Lenora P. LeCours, Secretary
 John P. Turner, Treasurer

The grateful thanks of the Committee were extended to the outgoing Chairman, William W. Allyn, for his services in that office.

This past year has seen more progress taken in completing Wakefield's school building program and also has been marked with achievements in the educational field. Some of the highlights of both are briefly summarized:

The new Junior High was opened in December with a well attended Open House held by the Building Committee on December 15, 1960. This school represents the latest in educational facilities and will serve our 7th and 8th graders for some time to come.

Last fall ground was broken for the new elementary school on the West Side off Albion Street and work to date has been progressing very satisfactorily. The Committee hopes that the school will open in the fall of this year so that those children in the West Side who are being transported to other parts of the town will be in their own districts.

During the year the additions to the Dolbeare and Montrose Schools were accepted by the Committee.

In 1960 a High School Evaluation Committee from surrounding Communities visited Wakefield Memorial High School, surveyed the various

departments of the school and submitted a report which was very favorable. As a result of the report the School was elected to membership in the New England Association of Secondary Schools and Colleges.

Since the Evaluation Committee filed its report our Committee has invited the various Heads of Departments in the high school to discuss with the Committee the work of the department together with the report of the Evaluation Committee. Many of the recommendations of the Evaluation Committee have been implemented and the others are being studied by the committee.

As a result of discussion concerning the Adult Education Program a Committee of Citizens was appointed to study the program in order to determine whether it should be expanded. The members of this committee are:

Joseph B. Connors	George Malonson
Jean Barrett	William J. McCarthy
Michael F. Collins	Isabelle M. O'Connor
Stanley C. Goodwin	David Russell
	Elliot Y. Klasky

The Committee also voted to appoint a committee to study the extra curricular assignments.

At the time of writing the Committee has two representatives on an informal committee made up of representatives from surrounding towns which has been exploring the need for a Regional Vocational High School.

As in the past the Committee reviewed the teachers' salary schedule and as a result the following schedule will be in effect on September 1, 1961.

Bachelor's Degree		Master's Degree	
Women	\$4200—6500	Women	\$4500—6800
Men	\$4400—6700	Men	\$4700—7000

In addition to the above there is an additional \$300 after 15 years experience and a further \$300 for those with 30 points of collegiate credit beyond a Master's Degree.

The Committee feels that this schedule is one which gives due recognition to our teaching staff and at the same time is one which the taxpayers can meet without undue burden.

With our almost completed building program and with the constant watch over the academic part of our system by our able and conscientious staff the Committee without being complacent feels that Wakefield can feel proud of its school system.

HENRY B. McCONVILLE, Chairman
MRS. LENORA P. LeCOURS, Secretary
JOHN P. TURNER, Treasurer
WILLIAM W. ALLYN
HAROLD STAUNTON
LAWRENCE J. FITZGERALD
MRS. GERTRUDE SPAULDING

To Members of the Wakefield School Committee:

My part of the annual report will supplement in a brief manner some of the accomplishments and changes that have taken place in our school system during the year 1960. Many of these items have been discussed and reported on more fully and in greater detail at the regular meetings with the Committee.

Our High School has undergone a complete evaluation during the year. All members of professional people participated in a three-day review of the High School program. This evaluation is most valuable in defining the strengths, weaknesses, and needs of the school. It will prove most beneficial in our immediate as well as our long-range planning for the future.

Additional advanced placement groups have been organized in the senior high school. The grouping by ability in the high school is proving most beneficial.

A 30 place language laboratory was installed in the high school for use in the language department. This was made possible partly through funds obtained through the National Defense Education Act.

The guidance program was further strengthened during the past year with the addition of personnel and many materials. A placement service has been provided in the central office for efficiency and uniformity. 53% of the high school graduates of 1960 are pursuing further education in 58 different institutions.

The occupancy of the new junior high school in December has eliminated our housing problem in the secondary schools. With the planned opening of the West Side Elementary School in September 1961, Wakefield pupils will be adequately housed in the number of classrooms needed.

The 7th, 8th and 9th grades have worked under trying circumstances for most of the past year. The staff and students are to be commended for the attitude that they have displayed and the accomplishments they have made under these conditions.

Junior High School students continue to use our school library to a greater extent. During the past year over 12,000 books were circulated from the junior high school library. This reflects the interest in reading of our young people.

Classes in French and Spanish have been inaugurated in the junior high school program. This is on a purely elective basis.

The results of our testing program indicate the high degree of efficiency attained by our youth, with standard test results of Wakefield students well above the national average.

A complete study of home work practices and the establishment of a philosophy regarding home work was made by the elementary principals and is now uniformly in operation in the elementary schools.

A highlight of the year was the Art Exhibit held in the Atwell Gymnasium in May. This covered all phases of elementary art work and the creative activity of the students was easily recognizable.

The staff under each elementary principal is working on one particular area of education. The results of these studies will be studied and analyzed for future recommendation and adoption in all elementary schools.

Studies being made at present are:

- a. The improvement of marking and reporting to parents so that evaluation of student accomplishments will have greater reliability.
- b. A study of the language arts with special emphasis on supplementing oral language.
- c. A study of the use of library and reference books at the elementary level.
- d. Written language and its improvement.

A Survey Committee of lay citizens studied the transportation of children in Wakefield particularly as it related to children attending the new junior high school. Their report was submitted to the School Committee for its study and consideration.

Two of our veteran teachers retired in 1960.

Mrs. Lillian S. Mackenzie with 32 years in the system.

Mr. Raymond S. Dower with 42 years in the system. Head of the Business Education Department in the High School.

These teachers have contributed many years of faithful and devoted service to the youth of Wakefield and deserve the commendation of our citizens.

Recommendations for further study.

Establishment of a summer school at the Junior and Senior high schools for both remedial and enrichment work.

Every consideration to be given to the furtherance of a townwide scholarship awards program.

Begin to think in terms of the need of a longer school day and a longer school year.

MAJOR REPAIRS AND PLANT IMPROVEMENTS — 1960

Senior High School

Memorial Building — New drapes were installed in the art room. The cafeteria and backstage of the auditorium were painted and gymnasium bleacher seats were varnished. A boiler water treatment system was installed.

Atwell Building — The garage roof was reshingled and gymnasium skylights were repaired and reglazed. The parking area was hot topped. The fire escape, some exterior trim, two rooms and other miscellaneous areas were painted. Asphalt tile was installed in one room, and floors were sanded and refinished in two rooms. Emergency lighting equipment was installed on the second and third floors. Copper water main was extended to the north end of the building. Heating of the sub-master's office was converted to zone control.

Walton Field — A new baseball backstop was erected. All the bushes and scrub growth were cleared from the field. The diseased elm tree was removed.

Elementary Schools

Tack boards were fixed to the rear of eight rooms at the Montrose School. Complete new window sash, parting beads and weather stripping for twenty windows, new bottom sash for three windows and new parting beads for forty-two windows were installed at the Greenwood School. The paved area was extended and the drainage system repaired and reactivated

on the playfield; the existing water main was replaced with copper, and the ventilating trunk and auxiliary vents were replaced in the girls' washroom; and additional washing facilities were installed in the boys' and girls' washrooms at the Greenwood School.

Interior window sash, sills and entrances were painted at the Dolbeare and Walton Schools. The first floor rooms, corridor and stair halls were painted at the Franklin School. Two classrooms at the Lincoln School; the health room, teachers' room, the auditorium ante rooms and washrooms and the boys' and girls' basement washrooms at the Montrose School were painted. The chain link fence at Hurd School and the fire escape at the Greenwood School were painted. The siding was replaced on the front of the West Ward School and the exterior of the building was painted.

Asphalt floor tile was installed in four rooms at the Greenwood School and in two rooms at the Montrose School. The floors of two rooms at the Franklin School were sanded and refinished.

Oil burners at the Dolbeare, Hurd and Walton Schools were overhauled. Boilers at the Dolbeare and Walton Schools were renippedled and a defective boiler section was replaced at the Montrose School. The No. 2 boiler at the Woodville School was raised and reset, and the No. 2 boiler at the Lincoln School was rebricked. New tuyeres were installed in the No. 2 boiler at the Warren School. The thermostats were replaced at the Franklin School.

Roof repairs were made to the Lincoln and Warren Schools and included new copper hip flashing, valleys and gutters. Edge cleats were renailed and repaired on entire perimeter of the original building at Walton School, and in part at the Dolbeare School. Hurricane damage was repaired on the Hurd, Lincoln and West Ward School roofs. Preventive programs have been continued on the Woodville, Greenwood and Franklin School roofs.

The chimney of the Franklin School has been repaired and recapped, and necessary pointing and weatherproofing have been completed at the Lincoln and Warren Schools.

Panic exit devices have been installed at the Woodville, Warren, Hurd Montrose, Greenwood, and West Ward Schools. Emergency lighting equipment has been installed at Franklin, Greenwood, Hurd, Montrose and Woodville Schools. Three diseased or hurricane damaged trees were removed from the Lincoln and Montrose School properties.

ALMA MATER

We have reached the highest peak
 Of our castle in the sky,
 Where our journey now is ended—
 To our school we bid good-bye.
 Since "Today Decides Tomorrow"
 Is our motto, true and bright,
 We shall face our new horizon
 With its teaching as our light.
 Of our school the past few years
 We have memories to love.
 Alma Mater, with thy guidance
 We look up to Him above.

REPORT OF THE LIBRARY TRUSTEES

The Trustees of the Lucius Beebe Memorial Library consider the year 1960 as most successful in the operation of the library. Our Head Librarian, Miss D. Marjorie Taylor, in her report, brings out the ever-important part our public library plays as a cultural center for the Town of Wakefield, as evidenced both by the increased circulation in books and records, and the many displays and exhibitions that have been held at the library. The Trustees and the staff have encouraged the use of the library as a meeting place for cultural groups and definite steps have been taken to use the library more for this purpose. Such organizations as the Arts and Crafts, Wakefield Garden Club, Wakefield Historical Society, Wakefield Art Association and the two Great Books groups have held meetings in the library lecture hall this past year, as have many other smaller groups.

At the present time both the main library and the two branches are in excellent physical condition and with the cooperation of the Finance Committee, we have been able to do the necessary repairs, painting, etc.

We are very glad that our Head Librarian, and other members of the staff have been active during the past year in the activities of the various library associations in the state. Miss Taylor served as Secretary this past year for The Metropolitan Boston Library Planning Council whose purpose is to study the problems and to promote cooperation among the thirty-five libraries in the metropolitan area. Mrs. Evelyn Henderson, Supervisor Adult Services, represented the library at the meeting of the American and Canadian National Library Association held in Montreal.

The Trustees wish to express their appreciation to the National Library Week Committee composed of Mr. Robert G. Reed, Mrs. Donald White, Mrs. Frank A. Tredinnick, Dr. Alfred Donovan, Mr. Paul Bates, Mr. Lucian Colucci, Rev. Horace Seldon, Dr. Lillian Clement, Miss Bernice Caswell, Mrs. Robert Pollack and Mrs. David Hodgdon. This committee presented an outstanding program for the citizens of Wakefield during National Library Week. One of the highlights of the week of celebration was the presentation of a high fidelity record player and recordings to the Library by the 9:29ers Banjo Club of the Congregational Church, for the use of the citizens of the town in the Library Music Room.

For a number of years the Trustees have been cognizant of the fact that the present physical buildings are inadequate for proper library service and definite steps must be taken to increase the facilities. At the town meeting in March, the Town Moderator appointed a Survey Committee to conduct a long-range survey of the library needs of the Town. The committee, which has been meeting since its appointment last spring consists of the Chairman, Mr. Omar K. Salmassy, Mrs. Merle Jones, Mr. Melvin Peach, Mr. Phillips Davis and Mr. Edward Lynch. This committee will make an interim report at the Annual Town Meeting in March 1961 and will plan to make a final report at the 1962 Annual Town Meeting, since they wish to have the benefit of the town-wide survey being conducted by the Town Planning Board which will not be available until the spring or summer of 1961.

The Trustees wish to express their appreciation not only to Miss Taylor, but to the other members of the staff for their excellent work during

the year on behalf of the Trustees and the citizens of the Town and also wish to commend them for their participation in community affairs.

1961 ANNUAL REPORT OF THE LIBRARIAN

"The true University of these days is a collection of books." So wrote Thomas Carlyle more than a hundred years ago, and the remark is as true today as it was then. In these days of overcrowded schools and colleges, and of increased demand in business and industry for further education of personnel, more and more people are turning to the public libraries for help. Public libraries have always been used for recreational reading, and still are, but now they are used equally for educational reading.

During the past year our book circulation rose from 204,320 to 221,895 and the percentage of non-fiction reading from 48.3% in 1959 to 52.3% in 1960. This is only one aspect of the use of the library as an educational aid. Our reference room and high school room are crowded day after day with students, and the large number of questions answered by staff members is yet another indication of this seeking for knowledge.

In our attempt to satisfy our borrowers we have added over 4,000 volumes to our book stock, including a number of new reference tools. Among these might be mentioned a Dictionary of American Usage, Merck Index of Chemicals and Drugs, Encyclopedia of Chemical Technology, Who's Who in Commerce and Industry, The Encyclopedia of World Art and The American Catholic Who's Who. In the Youth Room we added the Larousse Encyclopedia of Astronomy, Dictionary of Discoveries, Natural Sciences Illustrated, Historical Atlas of the Holy Land and the McGraw Hill Encyclopedia of Science and Technology. A new edition of the Encyclopedia Americana was added to each of the branch libraries. New periodicals included Banker and Tradesman, Bulletin of the Atomic Scientist, The Massachusetts Review and the New England Galaxy. In addition, inventory of the non-fiction stock has been taken and obsolete books discarded and the catalog revised.

This year many people have taken an interest in new books and 254 titles were added in response to borrowers' requests, compared to 177 last year and 120 the year before. Our collection of phonograph records was brought into greater prominence this year by the gift of a record player and money for a number of records. These were presented by the 9:29ers Banjo Club at the opening Tea in celebration of National Library week on April 3rd. During the year the circulation of recordings, both musical and spoken, increased fifteen percent over 1959.

Passage of a bill to provide State Aid for public libraries in Massachusetts has brought the question of cooperation between libraries to the forefront. In this connection it is interesting to note that while we have borrowed fifty-five books from other libraries to fill requests of our borrowers, we have lent to other libraries one hundred books. We have borrowed from Melrose, Malden, Reading, Watertown, Arlington and Everett, and loaned to Lynnfield, Reading, Stoneham and Melrose. We have also borrowed collections of Swedish, Polish, French, German and Russian books from the Massachusetts Library Commission.

As the last census figures show, Wakefield is a growing community, and this is reflected in the new people who use the library. America is on the move, and our new borrowers come from as far away as Ohio, California or Europe and from as close at hand as Stoneham, Reading or Somerville. At the same time many people are moving from Wakefield, sometimes without turning in their library cards. In order to have a more accurate file of registrations, all borrowers are being asked to sign new forms as their present cards expire so that we may eliminate inactive registrations. So far since August we have registered 1,580 borrowers, including 590 new people.

The Youth Room continues to be well used. On many days all the tables are filled and we could use more if we had the space for them. During the year we added height to the bookshelves to accommodate more books, now there is no room for further expansion of any kind.

Our Youth librarian, Mrs. Edith Stewart resigned at the end of August to work in the High School library. At the same time the Junior High School, while waiting for the new building to be completed, went into double sessions. Children who went to school in the afternoon came to the library to study in the morning. With no Youth librarian this meant additional strain on the library staff, but at the beginning of December Mrs. Bush was appointed acting Youth librarian, the new school building was opened, and things returned to normal. It is still too early to judge whether the existence of an extremely good library at the new Junior High School will relieve the pressure on our Youth Room library, but we certainly hope it will. Meantime, the Beebe Library continues to help students of all kinds.

Work with children is an important part of any library, and the report from our Children's librarian, Mrs. Kathryn Duggan, recognizes this. Pre-school story hours and school age film programs have been very well attended, while the summer program of library instruction, story telling and films attracted between 150 and 200 children weekly during the summer vacation. At the same time fifty talented children came for instruction weekly during their five week session of summer school. Many kindergarten and lower grade children visited the library with their teachers during the year, and Mrs. Duggan visited all the grades before the summer vacation to explain the summer program, while Mrs. Stewart talked to the sixth grade students about transferring to the Youth Room.

During the year 516 children joined the library and received juvenile library cards. Any child who can write his own name may, with his parents' permission, have a library card.

The Greenwood Branch Library has shown a great increase in service during the past year. Situated as it is in the Greenwood School building a great deal of the work is with children, but adult use is once more growing, and the opening of the library on Friday mornings is proving increasingly popular. Circulation has increased 3,083.

Here, as at the main library, a successful summer reading program was held, while teachers have increased their requests for classroom deposits and pictures. Pupils are taking an interest in the display case and have provided material for monthly displays. The appearance of the room has been improved by the provision of Venetian blinds at the front windows and new tops to study tables. Miss Bolster, Greenwood librarian, is pleased with the improvement in behavior at the branch in spite of increase in book circulation and use of the room for study.

The Montrose Branch library has also given increased service to the community it serves, by being open an additional afternoon, thus offering eighteen library hours a week. In addition about 35 children have regularly attended the Wednesday morning pre-school story hour conducted by Mrs. Waterworth, Branch librarian. The addition of a new study table and extra bookcase has relieved the congestion, borrowers have made full use of the facilities offered — book circulation shows an increase of 5,050 over last year. Inventory has been taken and new books added so that the book stock can meet demands for study and recreational reading. The building has been improved by the addition of a new roof, made necessary by hurricane damage, new gutters and exterior painting, and the new sidewalk and curbing makes it easier of access in bad weather. The Montrose section is growing all the time and residents have shown their appreciation of their library by joining and using it extensively.

This report on the year's work would be incomplete if it neglected to mention the work done behind the scenes. Miss Gladys Mackenzie, Cataloguer, with the help of the Youth and Children's librarians, has catalogued over 4,000 books and supervised the filing of catalog cards for the new books and withdrawing cards for 3,000 discarded books. Mrs. Grace Eaton has prepared these new books for circulation and mended hundreds of books during the year.

The work of the library staff is not confined within the library walls. In addition to visits to schools already mentioned, staff members have spoken to clubs and parent-teacher groups, have attended professional meetings and conferences, assisted in book and film reviewing for libraries in the district, and worked with various town organizations. The library is a part of the community life of the town, as was demonstrated particularly during National Library Week when civic clubs and private citizens helped the library staff present a varied program of meetings designed to, "Open wonderful new worlds" through books. The Wakefield Item was generous with publicity for National Library Week and throughout the year.

Many groups use the library hall for meetings and exhibits, thus strengthening the bond between library and community. For several years the Wakefield Art Association has displayed its, "Picture of the

Month," at the main library and this year has chosen one each month for each of the branch libraries.

For these contacts, for loan of material for our display cases, for flowers and gifts of books and for the many ways the citizens of Wakefield show their appreciation of their library and its staff we are grateful.

Respectfully submitted,

D. MARJORIE TAYLOR

Librarian

TREASURER'S REPORT

CONTRIBUTORY RETIREMENT

Report of the Municipal Light Board

January 3, 1961

To the Citizens of the Town of Wakefield:

We submit for your consideration the sixty seventh annual report of the Municipal Light Board for the year ending December 31, 1960.

The net profit of the Department was \$213,142.03 as compared to \$213,244.58 in 1959. The sale of gas increased 6.4% and electricity 9.7%.

The balance in the Operating Fund was \$210,810.69 as compared with \$198,853.50 in 1959.

The sum of \$75,000.00 was paid to the Town to be used in computing the tax rate for 1960. The total amount paid to the Town is \$1,038,229.57.

The Manager's report including financial statements for the year are included in this report.

Respectfully submitted,

JOHN MORLEY, Chairman
JEAN C. HARTSHORNE, Secretary
JAMES B. WISWALL

To the Board of Light Commissioners:

Gentlemen:

The following condensed Profit and Loss Statement shows the financial operation of the Department for the year ending December 31, 1960 and the changes from the previous year:

Sale of Gas and Electricity	\$1,682,579.68	Increase	\$138,836.11
Cost of Gas and Electricity	944,696.39	Increase	110,019.12
<hr/>			
Gross Revenue	737,883.29	Increase	28,816.99
Operating Expense	525,833.54	Increase	30,459.76
<hr/>			
Operating Revenue	212,049.75	Decrease	1,642.77
Other Revenue	4,261.96	Increase	828.00
<hr/>			
Total Gross Revenue	216,311.71	Decrease	814.77
Other Expense	3,169.67	Decrease	712.23
<hr/>			
Net Income	213,142.04	Decrease	102.54
Paid to Town in lieu of Taxes	75,000.00	Increase	5,000.00
<hr/>			
Net	\$ 138,142.04	Decrease	\$ 5,102.54

During the year the Electric Department installed
15,171 feet of Primary wire
19,793 feet of Secondary wire
95 New Services
55 Poles

and the Gas Department installed

1,132 feet of Gas Mains

2,706 feet of Service Pipes

36 New Services

At the end of the year there were 4,562 gas meters and 7904 electric meters in use, which is a decrease of 11 gas meters and an increase of 157 electric meters.

ELECTRIC DEPARTMENT

An additional 13,800 volt supply line was installed underground, from the Stoneham line to our Wakefield Avenue substation and equipment for this line was installed at the substation. This gives us a total of four supply lines.

Land was purchased on Ballister Street on the West Side for a new substation site and a 5,000 KVA transformer and switchgear were installed at this location. The station will be placed in service in 1961 and will be named for Matthew J. Burns, a beloved employee for many years.

During the year 38 transformers, totalling 2300 KVA, were added to our lines and 58 new street lights were installed.

Our peak load during December was 12,456 kilowatts and our kilowatt hour sales increased nearly 14% over 1959.

GAS DEPARTMENT

Gas mains and services were replaced on several streets which the Town was reconstructing.

The customary Summer and Winter surveys were made for gas leakage prevention.

During the past several years there have been small increases in the cost of gas from the Transmission Company while our prices have remained unchanged. In 1960 there was a substantial increase which we have been able to absorb up to the present.

We thank the members of the Municipal Light Board for their guidance and counsel and the employees for their loyalty and cooperation. Financial Statement follows:

CHARLES F. YOUNG,
Town Clerk

Adjourned Session, March 21, 1960

Meeting called to order by Moderator Roger H. Wingate at 7:40 P.M. in the auditorium of the memorial high school.

Thirty-eight students from the Atwell Junior High School and several other guests were given unanimous consent of the meeting to be present as observers.

On motion by Cyrus M. Dolbeare:

Voted: That Article 2 be taken from the table.

Reporting for the committee appointed under Article 2, to submit nominations for those town officers not required to be elected by ballot, he presented the following nominations:

Surveyors of lumber: George R. Kerr, Ralph Morel, James E. Hewes, Hiram A. Tobey, George J. Gould and George E. Blair.

Field drivers: Richard W. Baker and Everett E. Packard.

On motion by Mr. Dolbeare:

Voted: That the nominations be closed, and that the Town Clerk cast one ballot for the persons nominated and that they be declared elected.

The town clerk then cast one ballot for the persons nominated, and the moderator declared them elected.

On motion by Mr. Dolbeare:

Voted: That, believing that the subject-matter of Article 2 has long since outlived its usefulness, and that its purposes as outlined in the statutes might well be handled by the selectmen, your committee recommends that this article in each year's annual warrant be referred to the Honorable Board for further study, and that future appointments be made with other town appointments by that board, commencing in 1961.

ARTICLE 23

To see if the Town will vote to raise and appropriate a sum of money for the improvement of streets and/or roads under Chapter 90 of the General Laws, and to authorize the Board of Public Works to acquire by purchase or by eminent domain proceedings, rights and easements necessary in connection therewith for construction and to slope land back from street lines, said money to be used in conjunction with any money which may be allotted by the state or county, or both, for this purpose, or take any other action in relation thereto. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$8,500 to carry out the purposes of Article 23.

ARTICLE 24

To see if the Town will vote to raise and appropriate a sum of money for the maintenance of various streets built under Chapter 90 of the General Laws, said money to be used in conjunction with any money which may be allotted by the state or county, or both, for this purpose or take any other action in relation thereto. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$1,500 to carry out the purposes of Article 24.

ARTICLE 25

To see if the Town will vote to raise and appropriate a sufficient sum of money to construct sidewalks on various public streets in the Town, and to authorize the Board of Public Works to acquire by purchase or by eminent domain proceedings, rights and easements necessary in connection therewith for construction, to slope land back from street lines and construct retaining walls. This work to be done under the Betterment Act. — Board of Public Works.

On motion by Finance Committee as amended:

Voted: That the town raise and appropriate the sum of \$10,900 to construct sidewalks on Salem Street from Eunice Circle to Wharton Park, Ames, Middle and Minot Streets, Parker Road and various other streets in the town, and to authorize the Board of Public Works to acquire by purchase or by eminent domain proceedings, rights and easements necessary in connection therewith for construction, to slope land back from street lines and construct retaining walls, said work to be done under the provisions of the Betterment Act.

The vote in the affirmative was unanimous.

ARTICLE 26

To see if the Town will vote to raise and appropriate a sufficient sum of money to provide for the disposal of rubbish and refuse. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$15,000 to carry out the purposes of Article 26.

ARTICLE 27

To see if the Town will vote to raise and appropriate a sufficient sum of money for the proper development of the Hall Park property on North Avenue, and the Col. Connelly Park on Lowell Street. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$2,700 to carry out the purposes of Article No. 27, \$1,700 of which sum shall be allotted to the final development of Colonel Connelly Park and \$1,000 allotted to the further development of Hall Park property.

ARTICLE 28

To hear and act upon the report of the Board of Public Works in laying out Town ways under the Betterment Act in substantially the same locations as the various private ways listed below, and to authorize the taking of slope easements in land adjoining the locations of the said proposed Town ways in accordance with the General Laws, Chapter 82, Section 32b:

a. Beebe Lane running from Lowell Street southerly approximately 767 feet to the intersection of a private way known as Brewster Road.

b. Fell Street running from Oak Street southerly approximately 634 feet to the intersection of a private way known as Webster Avenue.

c. Plymouth Road running from Broadway to Plymouth Road a distance of approximately 2020 feet.

d. A portion of Hillside Avenue from Fairmount Avenue westerly approximately 260 feet to a dead end.

e. Swansea Road running from the end of the accepted portion east of its intersection with Shetland Road about 370 feet to the junction of Harwick Road.

f. Harwick Road running from the intersection of Keeling Road northeasterly approximately 410 feet to the junction of Swansea Road.

and to see if the Town will vote to raise and appropriate a sufficient sum of money for the original construction of public ways or the extension or widening thereof, including land damages and cost of pavement and sidewalks laid at the time of said construction or for the construction of stone, block, brick or other pavement of similar lasting character under specifications approved by the State Department of Public Works or authorize the treasurer to borrow with the approval of the Selectmen and issue notes or bonds of the Town therefor, and/or by transfer from other available balances. — Board of Public Works.

Motion by Finance Committee:

That the Town accept and adopt, under the Betterment Act, the reports of the Board of Public Works on the acceptance and layout of the streets described in Article 28, Paragraphs A, E, and F, plans of said layouts being on file with the Town Clerk, and that the Town authorize the taking of slope easements in land adjoining the locations of said proposed town ways in accordance with the provisions of Chapter 82, Section 32B of the General Laws, and further that for the original construction of Beebe Lane, Swansea Road, and Harwick Road, including land damages and cost of pavement and sidewalks laid at the time of said construction of stone, block, brick, or other permanent pavement of similar lasting character, under specifications approved by the Department of Public Works, the Town raise and appropriate the sum of \$42,000, said work to be done under the provisions of the Betterment Act.

On amendment by Melvin Levine:

Voted: That the Town accept and adopt, under the Betterment Act, the reports of the Board of Public Works on the acceptance and layout of the streets described in Article 28, Paragraphs A, E, and F, plans of said layouts being on file with the Town Clerk, and that the Town authorize the taking of slope easements in land adjoining the locations of said proposed town ways in accordance with provisions of Chapter 82, Section 32B of the General Laws and further that for the original construction of Beebe Lane, Swansea Road, and Harwick Road, including land damages and cost of pavement and sidewalks laid at the same time of said construction or for the construction of stone, block, brick, or other permanent pavement of similar, lasting character under specifications approved by the Department of Public Works, the Town raise and appropriate the sum of \$42,000, said work to be done under the provisions of the Betterment Act; AND THAT the Town accept and adopt, under the Betterment Act, the report of the Board of Public Works on the acceptance and layout of the street described in Article 28, Paragraph C, except as to the provisions therein for sidewalks, a plan of said layout being on file with Town Clerk, and that the Town authorize the taking of slope easements in land adjoining the location of said proposed way in accordance to the provisions of Chapter 82, Section 32B of the General Laws, and further that for the original construction of Plymouth Road, including land damages and cost of pavement laid at the same time of said construction or for the construction of stone, block, brick, or other permanent pavement of similar, lasting character under specifications approved by the Department of Public Works, the Town further raise and appropriate the sum of \$16,000, said work to be done under the provisions of the Betterment Act, making the total appropriation \$58,000.

On amendment duly made and seconded:

Voted: That the Town accept and adopt, under the Betterment Act, the reports of the Board of Public Works on the acceptance of paragraphs A, E, and F, and also include paragraphs B and C, with exception of sidewalks under paragraph C, on the acceptance of layouts of the streets described in Article 28, plans of said layouts being on file with the Town Clerk, and that the Town authorize the taking of slope easements in land adjoining the location of said proposed town ways in accordance with the provisions of Chapter 82, Section 32B of the General Laws, and fur-

ther that for the original construction of Beebe Lane, Swansea Road, Harwick Road, Plymouth Road, and Fell Street, including land damages and cost of pavement and sidewalks laid at the time of said construction, or for the construction of stone, block, brick, or other permanent pavement of similar, lasting character under specifications approved by the Department of Public Works, the Town raise and appropriate the sum \$71,000, said work to be done under the provisions of the Betterment Act.

On amendment by Leo F. Douglass:

Voted: To further amend the motion of the Finance Committee under Article 28 by adding Paragraph D, Hillside Avenue, and further appropriate \$9,000, making the total appropriation for street construction under Article 28 — \$80,000.

The vote in the affirmative was: Yes, 328 — No, 135.

An amendment by John J. McShane, chairman of the Board of Assessors, to appropriate the sum of \$20,000, and appropriate \$60,000 by bond issue, ten year term, was voted in the negative.

A motion by Donald McAuliffe to take up each street separately was ruled out of order by the Moderator.

Mr. McAuliffe requested to record with the Town Clerk his objection to the Moderator's ruling. Objection duly recorded.

The original motion, by the Finance Committee, as amended, then was voted in the affirmative. The vote was: YES, 309 — NO, 101, and the Moderator declared the motion carried.

A motion by Julius Horovitz to take up Article 43 out of order was voted in the negative.

ARTICLE 29

To see if the Town will vote to raise and appropriate a sufficient sum of money for the construction of sewers for surface drainage in the Town, and to authorize the Board of Public Works to acquire by purchase or by eminent domain proceedings rights and easements necessary in connection therewith for construction, maintenance and repair, and to authorize and instruct the treasurer, with the approval of the Selectmen, to borrow and issue notes or bonds of the Town therefor, and/or by transfer from other available funds. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$13,800 for the construction of sewers for surface drainage in the area of Hamilton Road, Jefferson Road, and Richardson Street to carry out the purposes of Article No. 29.

An amendment by the Finance Committee to transfer an additional \$5,700 from the Excess and Deficiency Account was voted in the negative.

After the amendment failed to carry, the original motion was voted in the affirmative, YES, 309 — NO, 101.

On motion by Lewis Day:

Voted: That this meeting be adjourned to next Thursday evening, March 24, 1960, at the auditorium of the Memorial High School.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$5,000 to purchase for cemetery purposes a certain parcel of land containing approximately 181,000 square feet, being Lots 1A, 7A and ID as shown on Plat 36 of the Wakefield Assessors' plats, and lying northerly of Forest Glade Cemetery.

The vote in the affirmative was unanimous.

ARTICLE 37

To see if the Town will set aside a plot of land in the Forest Glade Cemetery for a burial place for members of the American Legion; said plot being bounded as follows: Easterly by Legion Avenue, Southerly by Third Path, Westerly by "B" Path and Northerly by Fourth Path, the area containing approximately 1280 square feet and being shown on the lot plan of Section A of Forest Glade Cemetery as Lots 26, 27, 36 and 37; and to authorize the Board of Public Works to execute a good and sufficient deed thereof to the Corporal Harry E. Nelson Post No. 63, American Legion. — Board of Public Works.

On motion by Finance Committee:

Voted: To set aside a plot of land in Forest Glade Cemetery for a burial place for members of the American Legion as described in Article No. 37.

ARTICLE 38

To see if the Town will vote to accept as a public way, the road called Magnolia Terrace, said road having been constructed by private interests under Town Supervision and in accordance with Town specifications, running from Lowell Street northerly approximately 508 feet to a dead end abutting Woodbriar Road, said street being more fully shown on a plan entitled "Revised Plan and Profile of Magnolia Terrace in Wakefield, Massachusetts, by Emmons & Fleming, Registered Land Surveyors, Reading, Massachusetts", and dated December, 1956. — Board of Public Works.

On motion by Finance Committee:

Voted: That the subject matter of Article 38 be indefinitely postponed.

ARTICLE 39

To see if the Town will vote to accept as a public way, the so-called Main Street Bypass, extending from Water Street at a point easterly of line of the Boston & Maine Railroad, Danvers Branch and running southerly and parallel to the railroad to Richardson Street and continuing in the same direction from Richardson and Bennett Streets, continuing to intersection with Main Street at a point opposite Lot No. 91, Plat No. 18, and to see if the Town will authorize the Board of Public Works to construct said road and will vote to raise and appropriate a sufficient sum of money for the original construction of said way or authorize the Treasurer to borrow with the approval of the Selectmen and issue notes or bonds of the Town therefor and/or by transfer from other available balances. — Board of Public Works.

On motion by Finance Committee:

Voted: To raise and appropriate the sum of \$12,500 for the construction of a public way as described in Article No. 39, providing that this highway is accepted as a public way and that this construction be provided for under the provisions of Chapter 90.

ARTICLE 40

To see if the Town will authorize the Board of Public Works to proceed with the recommendations as set forth in the Camp, Dresser and McKee Report, dated November 25, 1959, and to authorize the treasurer, with the

approval of the selectmen, to borrow and issue notes or bonds of the town therefor, and/or by transfer from other available funds. — Board of Public Works.

On motion by Finance Committee:

Voted: That the subject-matter of Article 40 be indefinitely postponed.

ARTICLE 41

To see if the Town will vote to rescind that portion of the vote on Article 44 on the Annual Town Meeting of 1959 which requires that the appropriation made under said article be used only in conjunction with matching funds available from the Housing Act of 1954, Title VII, Section 701, as amended. — Town Planning Board.

On motion by Finance Committee:

Voted: That the subject-matter of Article 41 be indefinitely postponed.

ARTICLE 42

To see if the Town will vote to amend its Zoning Bylaws by adding to the first clause of Section 1, paragraph (f), Prohibited Uses, the words "commercial amusement parks", so that the clause will read "The use of land or buildings within the Town of Wakefield for race tracks, drive-in theaters, commercial amusement parks, racing dog kennels, tourist cabins, trailers or trailer camps, and motels is prohibited." — Town Planning Board.

The report of the Planning Board was read by Kenneth W. Thomson, chairman, stating that a notice of the hearing, held February 23, 1960, was duly advertised in the Wakefield Daily Item on January 27 and February 3, 1960, and that the Planning Board recommended favorable action.

On motion by Mr. Thomson:

Voted Unanimously: To amend the Town Zoning Bylaws by striking out the first clause of Section 1, paragraph (f), Prohibited Uses, and substituting in place thereof the following:

"The use of land or buildings within the Town of Wakefield for race tracks, drive-in theaters, commercial amusement parks, racing dog kennels, tourist cabins, trailers or trailer camps, and motels is prohibited, provided, however, that the prohibition of commercial amusement parks shall not apply to land owned of record by any commercial amusement park on March 1, 1960, unless the operation thereof shall thereafter cease for a period of twenty-four consecutive months; and

ARTICLE 43

To see if the Town will vote to amend its Zoning Bylaws and Zoning Map by changing from a Business District to a General Residence District two (2) adjoining tracts of land bounded and described as follows:

First: The tract southerly of the center line of Prospect Street, so-called, and westerly of the center line of the Boston & Maine Railroad right of way.

Second: The tract westerly of the center line of North Avenue, easterly of the center line of the Boston & Maine Railroad right of way and northerly of the center line of Prospect Street, so-called. — Town Planning Board.

Chairman Thomson of the Planning Board reported that a hearing was duly held on February 23, 1960, pursuant to a notice published in the Wakefield Daily Item on January 27 and February 3, 1960, and that the Planning Board recommended favorable action.

On motion by Mr. Thomson:

Voted Unanimously: To amend the Town Zoning Map and Zoning Bylaws by changing the two (2) adjoining tracts of land described in Article 43 from a business to a General Residence District.

ARTICLE 44

To see if the Town will vote to amend Section 5A of the Zoning Bylaws by striking out the first paragraph of Section 5A and substituting in place thereof the following paragraph:

Subject to the provisions hereinafter contained in this section, there shall be provided for each dwelling house or place of habitation, clubhouse or other building permitted by this bylaw, constructed after the adoption of this section, in Single Residence Districts, a lot containing not less than 12,000 square feet with a frontage of not less than 100 feet on any street or private way; in General Residence districts, a lot containing not less than 8,000 square feet with a frontage of not less than 80 feet on any street or private way, provided, however, that each multiple family dwelling shall be located on a lot having an area of not less than 8,000 square feet for two (2) family units, (4000 square feet for each family unit), plus an additional 1,500 square feet of lot area for each added family unit therein, and all buildings, including accessory buildings, shall not cover more than 30% of the area of the lot; and in Business Districts each dwelling or building used principally as a place of habitation shall be on a lot containing not less than 8,000 square feet with a frontage of not less than 80 feet on any street or private way and shall be subject to all and the same requirements of this bylaw applicable to dwellings or a place of habitation in General Residence districts. No dwelling house or place of habitation shall hereafter be constructed in an Industrial District and no existing buildings in any Industrial District shall be converted into a place of habitation. — Town Planning Board.

Mr. Thomson read the report of the Planning Board, stating that a hearing, duly held on February 23, 1960, and duly advertised in the Wakefield Daily Item on January 27 and February 3, 1960, it was unanimously voted to recommend favorable action on Article 44.

On motion by Mr. Thomson:

Voted: That the Town amend its Zoning Bylaws by striking out the first paragraph of Section 5A and substituting in place thereof the paragraph set forth in Article 44.

The vote, as counted by the tellers, was YES, 348 — NO, 80, and, having received the necessary two-thirds vote, the moderator declared the motion carried.

ARTICLE 45

To see if the Town will vote to amend its Zoning Bylaws and Zoning Map by changing from a Single Residence district to a Business district, a tract of land on the easterly side of Vernon Street, by extending the present Business district at the junction of Vernon and Lowell Streets as follows:

Beginning at a point in the easterly side line of Vernon Street at the northerly line of the business district at Lowell Street, thence the line extends northerly along the easterly sideline of Vernon Street to a point 100 feet southerly of the southerly sideline of Fosters Lane; thence the line runs easterly 100 feet southerly of and parallel to the southerly side line of Fosters Lane to the northwesterly sideline of the Boston & Maine Railroad right of way; thence southwesterly by said line of said right of way to the above mentioned business district on the northeasterly side of Lowell Street. — Domenic A. DeVita and others.

The report of the Planning Board was read by Mr. Thomson, noting that a hearing, duly advertised, was held on February 23, 1960, and that the board recommended indefinite postponement.

On motion by Mr. Thomson:

Voted: That the subject matter of Article 45 be indefinitely postponed.

ARTICLE 46

To see if the Town will vote to amend its Zoning Bylaws and Zoning Map by changing from a single residence district to a general residence district a tract of land bounded and described as follows:

Beginning at a point in the Southerly line of Forest Street at a point in the B & M railroad location where the presently zoned business district joins the presently zoned single residence district;

Thence the line runs Southerly along said presently zoned business district through said Boston & Maine railroad location a distance of 750 feet;

"AN ACT INCREASING THE AMOUNTS OF PENSIONS AND RETIREMENT ALLOWANCES PAYABLE TO CERTAIN FORMER PUBLIC EMPLOYEES." — Thomas E. Hurton and others.

On motion by Finance Committee:

Voted: To accept the provisions of Chapter 493 of the Acts of 1959, said act being entitled:

"An act increasing the amounts of pensions and retirement allowances payable to certain former public employees."

To hear and act on the report of the committee appointed under authority of Article 9 of the warrant for the Annual Town Meeting of 1959 for the purpose of studying the advisability of installing voting machines in the Town of Wakefield. — Board of Selectmen.

The report of the committee was read and signed by the five members, as follows: Thomas D. Morse, chairman; George E. Findlay; Richard H. Hammond; William R. Sullivan; and Walter R. Jaynes, Secretary.

The report pointed out the advantages and disadvantages of voting machines as a result of questionnaires sent to the towns and cities using machines. The answers to the question of cost and of saving money the report stated were "varied." Machines would cost \$1,823.50 as of January 30, 1960 (exclusive of shipping costs), but should not be considered a stable price. Thirty machines to provide for Wakefield's five precincts would cost \$54,705.00.

The committee felt the advantages are many, and recommended the adoption of voting machines.

On motion by Finance Committee:

Voted: To accept the report as a final report and that the committee be discharged.

On motion by William K. Lawrence, Chairman of the Finance Committee:

Voted: That this meeting be now dissolved.

Account of State Audit

REPORT OF STATE AUDIT

To the Board of Selectmen

Mr. J. Edward Surette, Chairman
Wakefield, Massachusetts

Gentlemen:

I submit herewith my report of an audit of the books and accounts of the tax collector of the town of Wakefield for the period from September 1, 1959 to May 7, 1960, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. William Schwartz, Assistant Director of Accounts.

Very truly yours,

HERMAN B. DINE,
Director of Accounts

Mr. Herman B. Dine
Director of Accounts
Department of Corporations and Taxation
State House, Boston

Sir:

In accordance with your instructions, I have made an audit of the books and accounts of the tax collector of the town of Wakefield for the period from September 1, 1959, the date of the previous examination, to May 7, 1960, preparatory to a recommitment to the newly appointed temporary tax collector, the following report being submitted thereon:

The books and accounts of the tax collector were examined and checked. The commitments of taxes, excise, special assessments, and water liens were proved with the assessors' warrants issued for their collection. The receipts, as posted on the commitment books, were compared with the cash book record of collections, the payments to the treasurer were verified, the abatements were checked with the assessors' records of abatements granted, and the outstanding accounts were listed and proved with the controlling accounts in the town accountant's ledgers.

The books and accounts of the tax collector, as collector of water charges, were examined and checked. The commitments were verified, the recorded collections were checked with the payments to the treasurer, the abatements were compared with the departmental records of abatements granted, and the outstanding accounts were listed and proved.

The outstanding tax, excise, assessment, and water accounts were further verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

Lists of the outstanding taxes, excise, and assessments as of May 7, 1960 were transmitted to the assessors' for their use in preparing commitment warrants to the newly appointed collector.

While engaged in making the audit cooperation was received from the town officials, for which, on behalf of my assistants and for myself, I wish to express appreciation.

Respectfully submitted,

WILLIAM SCHWARTZ,
Assistant Director of Accounts

CHARLES F. YOUNG
Town Clerk

Report of Town Treasurer

Indebtedness Statement

Forty-sixth Annual Report of the Town Accountant

FOR THE YEAR ENDING DECEMBER 31, 1960

The total cash expenditure processed by the Town Accountant's Office amounted to \$8,676,073.04 of which amount \$464,226.41 was withheld and expended from employees wages for Federal Income Taxes, Blue Cross, Life Insurance and Teachers' Retirement; \$545,959.66 was expended on account of Maturing Debt and Interest; \$24,000.00 was repaid on Temporary Loans in Anticipation of State and County Reimbursement.

The total cash receipts amount to \$7,336,676.16 which indicates the necessity for serious control and consideration of this area of the Town's financial program.

Indebtedness continues as an important consideration in the Town's financial condition with the following addition during the year 1960 as is graphically described in the illustration on the previous page.

Sewer Construction	\$100,000
Water Construction	50,000
TOTAL	\$150,000

The operational and indebtedness cost of town services can be examined by the simple comparison with other immediately surrounding communities.

Community	Population	Valuation	Total Debt	Tax Rate	Per Cap. Valuation	Per Cap. Cost	Per Cap. Debt
Wakefield	24,276	60,360,100	5,546,000	48.00	2486	119.33	228
